**CURRICULUM
VITAE**

PROFILE

As a highly motivated Professional with a BA (Hons) in Music and Sound Production from BIMM Manchester, I am eager to apply my skills and expertise to new and exciting opportunities. With my academic qualifications and relevant experience, I am confident in my ability to drive success and make valuable contributions in a Professional environment related to the Music industry.

Having completed my degree, I have developed a strong foundation in Music Production, Music Theory and more specifically, Audio Engineering. Through my training, I have honed my technical and creative abilities and worked with an array of Professional practitioners, and Artists on projects of varying complexities. This has enabled me to develop a strong work ethic, high standards of computer literacy, active listening skills, emotional intelligence and troubleshooting abilities.

In addition to my academic experience, I have also gained valuable knowledge in front-facing customer service, which I believe to be one of the cornerstones of success when working in a creative and collaborative environment. Through my six years of customer service experience, I have learned how to effectively communicate with customers and clients, address their concerns, and deliver exceptional support. I am confident in my ability to work and communicate effectively in a high-pressure environment, as I pride myself on using initiative, paying close attention to detail, and adopting a positive attitude, regardless of the situation.

Freelance Mix Engineer

Jan 2020 – Present

Since 2020, I have been working on a Freelance basis, assisting with the Mixing, Mastering and Post Production for both established and emerging Bands, Artists, Producers, and Directors.

Oscillate Recordings

Nov 2022 – Present

Since 2022, I have been working on a Freelance basis with Oscillate Recordings, located in Manchester's Northern Quarter. This includes assisting with Recording, Mixing and Podcast Audio Post Production.
